QS Emerging Platform Architecture

STATUS: Incubate · Grow · Improve · Maintain · Rebuild · Consolidate · Sunset

SEARCH & ANSWER ENGINES — Answering student questions.
ChatGPT · Gemini · Claude · Perplexity · Copilot · Meta AI · Grok · AI Overviews · DeepSeek · Doubao · Qwen · Kimi · Ernie

SOCIALS — Clicks land on QS sites.
TikTok · Instagram · YouTube · Facebook · LinkedIn · X · Snapchat · Reddit · Quora · Pinterest · WhatsApp · Telegram · WeChat · Weibo · RED · Douyin · Bilibili · Zhihu · Google / Baidu

LEAD GENERATION — QS-owned sites. Graduate users into MyQS.

- MAINTAIN — **QS.com** — Corporate and institutional front door
- CONSOLIDATE — **B2B Lead Gen** — HolonIQ, 1Mentor and related institutional lead gen sites
- REBUILD — **TopUniversities.com** — Rankings directory, course catalogue, largest student source
- REBUILD — **TU China** — Mandarin, China-hosted mini TU
- REBUILD — **QS Career Match** — New 1Mentor front end. Postgraduate and professional lead gen, absorbs Top MBA
- INCUBATE — **Answers** — B2C and B2B answer seeding sites, written for search and answer engines to read

MyQS — QS AUTH

One logged in experience and portal for your QS experience, MyQS

Hyper Personalised MyQS — Assembled per user from profile and behaviour

- **B2B Curated MyQS** — Institution and partner view
- **B2C Curated MyQS** — Student and candidate view

- INCUBATE — **Dashboards** — The views a user owns, by role and entitlement
- INCUBATE — **Analytics** — Usage, performance and benchmarking over QS data
- INCUBATE — **AI Chat** — Answers questions over QS data. Reads Cerebrum
- INCUBATE — **QS One** — Membership tier. Grants embargoed access
- INCUBATE — **Networks** — Institution, partner and alumni communities

QAS Applications

QS Application System. The universe of apps reached through MyQS.

THREE PRODUCT COLUMNS, ONE SHARED SERVICES ROW

Rankings, Reputation & Partnerships

Sector intelligence sold to institutions

RANKINGS

- IMPROVE — **Big Picture / Factfiles** — Per-institution profile and benchmark pack
- MAINTAIN — **Subject** — Rankings by subject and faculty area
- MAINTAIN — **WUR** — The flagship World University Rankings
- MAINTAIN — **GME** — Global MBA and business masters rankings
- MAINTAIN — **Regional** — Asia, Latin America, Europe, Arab region
- IMPROVE — **Sustainability** — Sustainability ranking and its indicators

REPUTATION & PARTNERSHIPS

- MAINTAIN — **Academic Reputation** — Academic survey signal behind the rankings
- MAINTAIN — **Employer Reputation** — Employer survey signal behind the rankings
- INCUBATE — **Partnerships** — Partner discovery and partnership management

Future Students

Digital and events, student and university demand

- INCUBATE — **MyLeads (Accord v2+)** — Leads, campaigns and the Hub 2 replacement
- INCUBATE — **D&E Productivity & Dashboards** — Internal delivery and performance views
- SUNSET — Hub 2 — Deprecated — Retiring. Absorbed by MyLeads
- GROW — **White Label Career Navigator** — 1Mentor 2.0. Multi-tenant white label
- CONSOLIDATE — **Outreach** — Event applications, bookings and their data
- GROW — **University Skills Portal** — Institution backend for the white label front end

UBS

University services, enrolment and apply

- INCUBATE — **Uni Services Institution Portal** — Aurora portal: documents, scoring, counsellor feedback
- INCUBATE — **UBS Productivity & Dashboards** — Admin, reporting, data integrity and the client data API

Recruitment, Skills & Innovation

Demand, outcomes and curriculum signal

- INCUBATE — **Student Insights, GSF, ISS** — Student demand signal for recruitment
- INCUBATE — **Alumni Insights** — Alumni outcomes and destinations
- INCUBATE — **LMI / Curriculum** — Labour market data mapped to curriculum
- MAINTAIN — **World Future Skills Index (WFSI)** — Country-level future skills readiness
- MAINTAIN — **Innovation** — Innovation ranking and its indicator set

QAS Administration

Shared across all three columns

- IMPROVE — **CX & Access Control App** — Accounts, entitlements and support views
- IMPROVE — **QAS Cerebrum App** — Ontology, governance and dataset administration
- IMPROVE — **Rankings Admin** — Runs the rankings cycle through to publication
- INCUBATE — **Content Management** — Editorial content across the QS sites and apps
- GROW — **Codex Data Collection** — Single intake for rankings and evaluation submissions

Non QAS Native

Own authentication. Not yet in the ecosystem.

- MAINTAIN — **MoveIN** — Admissions CRM
- MAINTAIN — **MoveON** — International office platform
- MAINTAIN — **1Mentor** — Career navigation, white label

QS Auth

Sits under everything above. Every app request and every customer API, MCP or Super Graph call clears identity and entitlement here before touching data.

AI-ERA DATA PROTECTION

ACCESS POINTS — Customers enter from the side, through QS Auth, straight to the data.

- INCUBATE — **APIs** — Programmatic data access
- INCUBATE — **MCP** — Agents and AI tools
- IMPROVE — **Super Graph** — Federated queries

AGENTIC SURFACE — Context over the governed data, so an agent can use it safely.

- INCUBATE — **Semantic Models** — Entities, measures and how they relate
- INCUBATE — **Skills** — Named tasks an agent can call, with guardrails
- INCUBATE — **Grounding & Evaluation** — Answers cite governed data and are scored

Cerebrum

Governed data platform. Source of truth for rankings, institutions and analytics.

- IMPROVE — **QS Ontology** — Master and connected taxonomies and frameworks
- IMPROVE — **Data Governance** — Lineage, quality, retention
- IMPROVE — **Master Cerebrum Dataset** — Governed, connected source of truth

RAW SOURCES — Submissions, surveys, bibliometrics, product analytics and third-party feeds, governed on the way in.

DEFINED DATA EXCHANGE

HubSpot and MarTech Stack

Engagement and CRM. Four kinds of instance.

- IMPROVE — **B2B MarTech Stack** — Events tech and related B2B lead gen tooling
- IMPROVE — **B2C MarTech Stack** — Analytics, consent, engagement and lead scoring tooling
- IMPROVE — **B2B HubSpot** — Institutional sales and marketing
- IMPROVE — **B2C HubSpot** — Active student pool: nurture, scoring, routing. Fed from MyQS.
- INCUBATE — **Counsellor & Agent Portal** — HubSpot Pages with membership login. Serves QSA and Aurora instances. HYPOTHESIS
- GROW — **QSA HubSpot** — Apply instance, synced from B2C. Replaces Appian.
- MAINTAIN — **Aurora HubSpots** — Constellation of ~40 university instances. QSA is one of them.
